The Airtècnics range of decorative air curtains
combines perfectly the highest technology
with the most exclusive beauty.

Tailor-made design

RUND air curtain has a wide variety of configurations to suit any installation requirement. It can also be designed with special dimensions or with totally tailor-made supports.

Architectural elegance

Whether installed vertically or horizontally, RUND air curtain blends in perfectly with the surrounding environment as an architectural element or an ordinary column.

Integration and versatility

In addition to integrating perfectly into any space, ZEN air curtain can be an active part of the setting or decoration of the premises and have extra signage functions.
